Semi-cured Gel Nail Sticker

SKU.NO.: 0202410001

Size: 20 strips

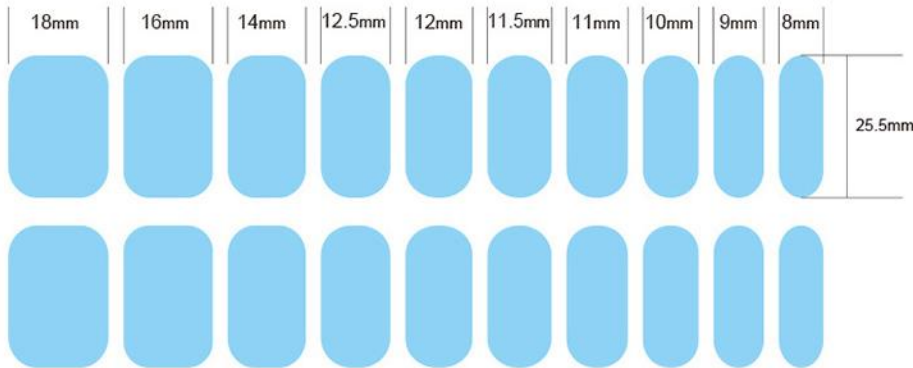

60s UV LAMP

Gel Nail Sticker

Before

After

What are semi-cured gel nail wraps stickers?

1.They are stickers made of real liquid gel and cured (or finalized) by 60%.

2.They are made of flexible and wearable material in order to fit most nail shapes and sizes.

3.After placing them on your nails and curing the remaining 40% with a UV lamp, the gel will completely harden, and the effect will be like applying colorful nail polish in a nail salon.

4.Semi-cured gel nail strips can also be dried naturally under the sun for 1-2 hours without UV light.

INSTRUCTIONS FOR USE

Step 1

Shape Nail and push back cuticles.

Step 2

Use alcohol pad to clean nails before application.

Step 3

Select best-fitting strip for each nail.

Step 4

Press firmly with wooden sticker or finger.

Step 5

Fold extra material and gently file away from nail edge using a nail file in a downward motion.

Step 6

Cure 60 seconds under LED Lamp till the nails completely solidified.
